Professional Summary

Full-Stack Developer (B.E., Artificial Intelligence and Data Science) with hands-on experience building and deploying scalable web applications using React.js, Next.js, TypeScript, JavaScript, Python, FastAPI, Node.js, Express, REST APIs, and PostgreSQL. Experienced in developing responsive frontends, backend services, authentication, database integration, payment systems, caching, and cloud deployments. Strong understanding of Git/GitHub, Docker, API development, and software engineering practices, with additional expertise in AI/ML and LLM-powered applications. Seeking a Full-Stack Developer role to build reliable, scalable, and production-ready web applications.

Work Experience

Software Engineering Intern– Scalefull Technologies Dec 2024 – Feb 2025

- Developed and enhanced web application modules by implementing frontend components, backend business logic, and database operations while following modular and maintainable coding practices.
- Built and integrated RESTful APIs, performed database queries and CRUD operations, and implemented input validation and error handling to support reliable application functionality.
- Collaborated with developers using Git/GitHub, performed API testing and debugging, resolved application issues, and participated in code reviews and development workflows.

Tech Stack: JavaScript · React.js · Python · REST APIs · SQL · Git · GitHub · Postman

Projects

ShopSphere | Full-Stack E-Commerce Web Application | [LINK](#)

Next.js · TypeScript · Node.js · Express · PostgreSQL · Prisma · Redis · Razorpay · Tailwind CSS

- Developed and deployed a production-grade full-stack e-commerce application using Next.js/TypeScript on the frontend and Node.js, Express, and Prisma ORM with PostgreSQL for the backend REST API, with JWT-based authentication and role-based access control (RBAC).
- Integrated Razorpay payment gateway with server-side signature verification and atomic database transactions, plus Redis caching with automatic invalidation on high-traffic endpoints.
- Built an admin analytics dashboard using Recharts and deployed a full cloud production environment (Vercel, Render, Neon PostgreSQL, Upstash Redis) with secure environment-based configuration.

iSecure | AI-Based Phishing Detection & Prevention Platform | [LINK](#)

React.js · JavaScript · Python · FastAPI · REST APIs · PostgreSQL · SQLAlchemy · Scikit-learn · JWT · Docker

- Developed a full-stack phishing detection platform using React.js, FastAPI, and Python, enabling userReact.js, JavaScript, Python, FastAPI, REST APIs, PostgreSQL, SQLAlchemy, Scikit-learn, JWT, Dockers to scan malicious URLs and phishing emails through an interactive web interface.
- Built and integrated REST APIs, PostgreSQL, SQLAlchemy, and JWT authentication for secure user management, real-time threat analysis, scan history, and data persistence.
- Implemented machine learning-based threat detection and integrated prediction services with the application, using Docker, Git, and GitHub for containerization, version control, and deployment.

Technical Skills

Programming:	Python, JavaScript, TypeScript, SQL
Frontend:	React.js, Next.js, Tailwind CSS, HTML5, CSS3
Backend:	Node.js, Express.js, FastAPI, Django, REST APIs
Databases & ORM:	PostgreSQL, MySQL, MongoDB, Prisma, SQLAlchemy
DevOps & Cloud:	Docker, GCP, Vercel, Render, Git, GitHub
AI/ML:	Scikit-learn, TensorFlow, PyTorch, NLP, Classification, Regression
Generative AI:	LangChain, LangGraph, OpenAI API, Hugging Face, LlamaIndex, MCP
Soft Skills:	Problem-solving, teamwork, adaptability, eagerness to learn

Education

B.E. in Artificial Intelligence and Data Science - 8.03 CGPA	D.Y.Patil College Of Engineering,Akurdi 2026
HSC - 82.5%	Sri Chaitanya Junior College,Pune 2022
SSC - 80%	Oxford International School, Nanded (MH) 2020

Certifications

- Deep Learning For Developers
- Python for Data Science
- Microsoft AI Skills Challenge
- The Complete Python Developer Course

Additional Information

Languages: Hindi, English, Marathi | Interests: Chess, Badminton, Music
